

Speakers and surgeons:

Tobias S. Köhler, MD, MPH, FACS

Associate Professor of Urology
Department of Urology
Southern Illinois University - School of Medicine
Springfield, Illinois, USA

Dr. Danial Osmonov

Urologist, Senior Physician
Department of Urology
University Hospital of Kiel
Kiel, Germany

Prof. Dr. Jürgen E. Gschwend

Chairman and Head of Department
Department of Urology
Technical University of Munich
Klinikum rechts der Isar
Munich, Germany

Dr. Georgios Hatzichristodoulou, FEBU, FECSM

Urologist, Medical specialist
Department of Urology
Technical University of Munich
Klinikum rechts der Isar
Munich, Germany

The workshop will be supported by:

500,- Euro

500,- Euro

500,- Euro

3rd workshop on surgical therapy of erectile dysfunction and Peyronie's disease

Special guest lecturer

Assoc. Prof. Dr. Tobias S. Köhler, IL, USA

Monday June 6th, 2016

Tuesday June 7th, 2016

Department of Urology

Dear colleagues!

After the great success of the workshops of the last years, we are pleased to invite you to the 3rd surgical workshop on surgical therapy of erectile dysfunction and Peyronie's disease, which will take place again at the Department of Urology, Technical University of Munich, Klinikum rechts der Isar in Munich.

The surgical treatment of erectile dysfunction by implantation of a penile prosthesis remains the gold standard in patients with erectile dysfunction not responding to medical therapy. By the use of specialized and standardized surgical techniques, as well as through an extensive pre-operative preparation and close follow-up we can reduce risks and complications to a minimum and at the same time greatly improve patient satisfaction.

Regarding Peyronie's disease, surgical therapy still remains the gold standard for correction of the associated penile deviation. Besides plication techniques, surgical procedures by partial plaque excision or incision and grafting of the tunical defect are preferred in advanced cases because they can minimize the risk of postoperative penile shortening.

It is our great pleasure to have Dr. Tobias Köhler from the USA and Dr. Daniar Osmonov from Kiel with us during the workshop. Dr. Köhler is one of the most successful prosthetic urologists in the USA and also leading scientific chairman in various academic and scientific societies related to sexual medicine. His expertise in prosthetic urology will be of tremendous enrichment for our workshop. Besides, Dr. Osmonov has become a high-volume implanter in the field. His experience from the last years of practice will also be of benefit to you.

As last year, our workshop will be an interactive one where you can actively join the operating room and discuss with the surgeons about the specific diseases and surgical techniques. This is a unique opportunity for you as participants to experience live surgeries and learn from high-volume surgeons.

We are looking forward to welcoming you to Munich in June 2016.

With kind regards,

*Prof. Dr. Jürgen E. Gschwend
Chairman and
Head of
Department*

*Dr. Georgios Hatzichristodoulou,
FEBU, FECSM
Urologist,
Medical specialist*

Monday June 6th, 2016:

Venue:

Department of Urology, Klinikum rechts der Isar, Technical University of Munich, Ismaninger Str. 22, 81675 Munich

8:00 – 8:15 am	Welcome <i>Prof. Dr. Gschwend Dr. Hatzichristodoulou</i>
8:15 – 8:30 am	Introduction of surgical cases for live surgeries “penile prosthesis implantation” <i>Dr. Hatzichristodoulou</i>
8:30 am – 3:00 pm	Three live surgeries with interactive participation of attendees „Surgical therapy of erectile dysfunction by implantation of a 3-piece inflatable penile prosthesis“ <i>Dr. Hatzichristodoulou Dr. Köhler, Dr. Osmonov</i>
3:00 – 3:30 pm	Break
3:30 – 4:30 pm	Lecture: Tips and tricks for a successful career in prosthetic urology: lessons learned from over 15 years of professional life in the field <i>Dr. Köhler</i> Lecture: Pre- and postoperative considerations and management in penile prosthetic surgery: minimizing complications while improving surgical outcomes and patient satisfaction <i>Dr. Osmonov</i>
4:30 pm	End of first workshop day

Tuesday June 7th, 2016:

Venue:

Department of Urology, Klinikum rechts der Isar, Technical University of Munich, Ismaninger Str. 22, 81675 Munich

8:15 – 8:30 am	Introduction of surgical cases for live surgeries “Surgical correction of penile deviation in Peyronie’s disease” <i>Dr. Hatzichristodoulou</i>
8:30 am – 3:00 pm	Two live surgeries with interactive participation of attendees „Surgical therapy of Peyronie’s disease by plication” and “Surgical therapy of Peyronie’s disease by partial plaque excision and grafting of tunical defect” <i>Dr. Hatzichristodoulou Dr. Köhler Dr. Osmonov</i>
3:00 – 3:30 pm	Break
3:30 – 4:30 pm	Lecture: Penile prosthesis surgery: current recommendations from the International Consultation on Sexual Medicine, Madrid, Spain, June 2015 <i>Dr. Köhler</i> Lecture: Surgical therapy of Peyronie’s disease: indications and techniques <i>Dr. Hatzichristodoulou</i> Summary and closing remarks <i>Dr. Hatzichristodoulou</i>
4:30 pm	End of workshop
